2019 ACCESSORIES

A Moto Guzzi accessory is original only when it is conceived of, designed and engineered by the same hand that gives these bikes their unique, recognisable DNA. A Moto Guzzi accessory is original only when it guarantees that these bikes will continue to be protected, cared for and provided with assistance. A Moto Guzzi accessory is original only when it makes your bike so personal that you too feel part of the legend. If indeed this is true, calling it an accessory is an understatement. Your Moto Guzzi Original will make your passion visible. And your bike will get the respect it deserves.

THE ORIGINS OF THE LEGEND

Moto Guzzi stands for pride in a glorious tradition, cutting-edge research and Italian style. All this is anchored at Mandello del Lario in 1921, where it all began. It has been in continuous motion ever since. This is a history rooted in riders and bikes, legendary victories, talent and passion.

START FAST

*Legends aren't born, they grow up instantly.
History is not something you wait for.
Like the future, you build it. You set your path, right from the start.
The Moto Guzzi company was established in 1921.
And the icon was created when its story began.*

FIGHT FOR LEGEND

Life is tough for the predestined. Because competitions drive evolution only if you win them. Because victories build self-esteem only if you are first over the finishing line. Because the runner-up is the first to be forgotten.

POWER TO CHANGE

*Movement is what generates excellence.
A capacity for change is what drives superiority.
Evolution is what changes standards.*
